Education

National University of Modern Languages   September 2020 – June 2024
Bachelor in Computer Science - CGPA 3.11

Experience

Android Developer – CCT, Rawalpindi   Oct 2024 – Present

- Develop and maintain Android apps with MVVM architecture for performance and scalability.
- Work on apps ranging from 100K – 20M+ downloads with 500K+ daily active users, ensuring high stability and reliability.
- Implement Google AdMob, In-App Billing, and Firebase Analytics for monetization and user insights.
- Collaborate with designers and QA teams to ensure smooth Play Store releases.

Flutter Developer – LinkHR, Rawalpindi   Mar 2024 – June 2024

- Collaborated with cross-functional teams to design and implement frontend features, ensuring high-quality code standards.
- Developed RESTful APIs and seamlessly integrated third-party services.
- Implemented robust authentication and authorization mechanisms for enhanced security.

Projects

Islam Pro| Kotlin, Firebase, Retrofit, Billing Library   **2025**

- Developed a full-featured Islamic app with Quran, Prayer Times, Tasbeeh, and Qibla Compass. Integrated AdMob and In-App Billing for monetization and implemented clean MVVM architecture for scalability.

Qibla Compass| Kotlin, AI Chatbot, Firebase   **2025**

- Enhanced the app with Hajj and Umrah features, integrated an AI-powered Islamic chatbot, and optimized compass accuracy and stability.

Language Translator| Kotlin, In-App Billing, Google Ads   **2025**

- Redesigned UI, improved responsiveness, and integrated subscriptions and Google Ads to increase user engagement and monetization.

GPS Video App| Kotlin, Android SDK, Google Ads   **2025**

- Created from scratch with embedded GPS metadata in videos. Integrated rewarded and interstitial ads to drive engagement and revenue.

Technical Skills

Languages Kotlin, Java

Android Development: ViewModel, LiveData, Navigation, Coroutines, Retrofit, Room, Firebase, AdMob, In-App Billing

Databases: MySQL, Mongodb, Firebase

Tools & Platforms: Android Studio, Git, Firebase, Play Console, Postman, Figma

Other Skills: Clean Architecture (MVVM), UI/UX Optimization, API Integration, Debugging & Performance Tuning
